BBFAS 1000: accessories

Individual DAS calibration targets for 3D wheel aligner

- The BBFAS 1000 base frame can be aligned accurately with the vehicle's geometric driving axis
- Moreover, the distance and the height of the calibration frame can be measured accurately by means of the 3D+ add-on features

Order number: 1 690 701 120 (left calibration target)

Order number: 1 690 701 121 (right calibration target)

Standard targets for the DAS calibration device

For the alignment of the DAS calibration device combined with Beissbarth Easy 3D+

Order number: 1 690 701 119

2 special targets for DAS calibration device and 4-post lifts

- Allows the alignment of the DAS calibration device combined with Beissbarth Easy 3D+
- Specifically for 4-post lifts with a clear span of less than 2.8 metres

Order number: 1 690 701 152

Basic unit of the mobile BBFAS 1000 calibration device

The mobile calibration device forms the basis of BBFAS 1000. It serves as basic rack for calibration targets for lane departure warning systems

Order number: 8 900 381 137

BBFAS 1000 ACC reflector mirror

ACC reflector mirrors are used for the adjustment of ACC sensors.

Order number: 8 900 381 150

BBFAS 1000 calibration target for lane departure warning systems of Volkswagen Group vehicles

Calibration device for the adjustment of the image sensor of lane departure warning systems on Volkswagen Group vehicles

Order number: 8 900 381 147

BBFAS 1410 high-precision calibration beam: upgrade for additional OEMs

BBFAS 1410 high-precision calibration beam: BBFAS 1000 upgrade kit for use of calibration targets of additional vehicle manufacturers

- Upgrading by means of BBFAS 1410 results in complete coverage for front camera calibration. Combined with optionally available calibration targets, the service can be expanded making it suitable for all important European, Japanese and Korean vehicle makes.
- The BBFAS 1410 high-precision calibration beam is installed into the brackets attached to the BBFAS 1000 base frame and serves as mount for the calibration targets required for the measurement.
- Beissbarth 3D and CCD wheel alignment systems are used for the alignment.

Order number: 8 900 380 006

BBFAS 1410

BBFAS 1415

BBFAS 1415 high-precision calibration beam with laser for vehicle symmetrical axis

BBFAS 1415 high-precision calibration beam: technically similar to BBFAS 1410, but additionally equipped with P-Assist S5 laser.

- Orientation towards the vehicle's symmetrical axis
- Calibration targets are attached to the BBFAS 1415 high-precision calibration beam in the same manner as to BBFAS 1410

Order number: 8 900 380 007

Multi-target shop

Calibration targets for additional vehicle makes

Target storage box with calibration targets for multi-brand calibration at the workshop

In order to protect them against dirt and to store them safely and without of risk of damage, Beissbarth offers calibration target sets stored within a robust box. The targets can be placed both easily and quickly. The box content can be complemented by additional calibration targets to be ordered separately hence allowing workshops to perform DAS calibration tasks on a numerous different vehicle makes.

Multi-target basic set 1 for BBFAS 141x

Multi-target starter kit 1 with storage box for BBFAS 1410/15 and BBFAS 415

Scope of delivery

calibration targets / storage box:

- Nissan set type 1 (order number: 8 900 381 139)
- Toyota type 1 (order number: 8 900 382 287)
- Mercedes-Benz type 1 (order number: 8 900 382 312)
- Mazda type 1 (order number: 8 900 382 318)
- Honda type 3 (order number: 8 900 382 349)
- Toyota type 3 (order number: 8 900 382 355)
- Universal type 1S (order number: 8 900 382 570)
- (Empty) storage box (order number: 1 690 381 217)

Order number: 8 900 381 001

Multi-target basic set 2 for BBFAS 141x

Multi-target starter kit 2 with storage box for BBFAS 1410/15 and BBFAS 415

Scope of delivery

calibration targets / storage box:

- Mercedes-Benz 1/Infiniti 2 (order number: 8 900 382 312)
- Mercedes-Benz 2 (order number: 8 900 382 319)
- Universal type 1S (order number: 8 900 382 570)
- (Empty) storage box (order number: 1 690 381 217)

Order number: 8 900 381 002

Empty target storage box

Empty storage box for multi-brand calibration targets for front camera calibration

Order number: 1 690 381 217

Multi-target shop: overview of calibration target sets*

Beissbarth provides a wide range of calibration targets for multi-brand calibration at automotive workshops

Whether neatly arranged in a robust box or as individual sets, the calibration targets are designed for quick

application and can easily be attached to the calibration beam. For workshops this means saving precious time when performing DAS calibration without beam on vehicles of different makes.

BBFAS 1410 high-precision calibration beam

Attaching calibration targets to the sliders of the BBFAS 1415 calibration beam by means of magnetic adapters

Nissan calibration target set type 1
